### COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Radio or Television Interference, Noise, Health and Safety, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential, Other

OTHER: Retirement

Comment:

As if we haven't been beat up enough in the last year with property value loss, here you come with a way for us to loose even more. We own a place about 1 mile NW of county rd 530. There are three of you possible corridors which run between 1000 and 100 feet of my front window. How many of you people would like to be greeted with a scene such as you simulation 12 every morning. Those of you who say yes are liars. I purchased this place to retire in. To get away from all the powerlines etc. and here you come with these monsters. Corridors 54, 55, and 56 will all greet me with these mechanical wonders. What happened to notification of land owners? Are utility companies now an extension of government and can do whatever they want. How would you like to be forced to accept a 230 KV powerline in your front yard because there is absolutely nothing you can do about it.

Thanks a lot

David E. Shafer
